ABOUT ME

I'm a versatile software developer, whether I am working independently on code maintenance of **codegroove**- VSCode extension for tracking and analyzing code time or contributing to collaborative projects like an invoicing application and CodeQuest arcade game, I bring a dynamic skill set to the table. I also share my tech insights on my **blog** page.

TECH STACK

- ✓ Javascript, Typescript
- ✓ Python
- ✓ ReactJS, NextJS, Node
- ✓ Jest, unittest
- ✓ MySQL, mongoDB
- ✓ HTML, CSS, TailwindCSS

PROFESSIONAL EXPERIENCE

MARTES SPORT Sp.zo.o.
Regional Sales Manager | 06.2017 - 01.2022

- Oversaw day-to-day operations, emphasizing effective communication, collaboration, and motivation within the team of up to 17 store managers and 180 salesmen.
- Transferred knowledge on merchandising, sales techniques, and customer experience, leading to impart valuable insights and skill development to team members.
- Successfully navigated challenges in opening of at least 9 new stores,that opened up new possibilities of acquiring clients for the firm.
- Prioritized customer experience in daily operations, fostering a customer-centric mindset that is valuable in understanding user needs and experience.
- Achieved business growth by consistently meeting sales targets and revenue goals.

PERSONAL PROJECTS

codegroove: Typescript | csv-parser | chart.js   <u>Github</u>
- VSCode extension for tracking and analyzing coding time

Code Quest : Python | PyGame | MySQL   <u>Github</u>
- Arcade game, where I achieved a test coverage of 95%, employing automated tests via Github actions, and collaborated closely on development and refactoring efforts

Invoice App: React | Redux | Yup | Formik | TailwindCSS | Firebase   <u>Live demo</u>   <u>Github</u>
- Invoicing application, where I was responsible for forms and validation process as well as effective error handling
